PACKAGING

Plastic Bag

ALLERGIES

Model with hypoallergenic finish.

STORAGE INSTRUCTIONS

Store in a dry place. Protect from UV exposure. Outside of its original packaging, it can be hung on a hanger.

Advantages:

- Water-repellent full-grain leather: this is the outer part of the leather

with a water-repellent treatment to repel contact with liquids.

- EPIDERMIS.
- Bovine full-grain leather: offers excellent mechanical properties.
- Breathable.

Comfortable and flexible.

- Thinsulate lining: very fine non-woven fiber.
- Excellent thermal insulator against the cold.
- Moisture resistant.
- Palm grip for greater stability in situations with a risk of slipping.
- Cotton cuff for a better fit on the wrist.
- Thumb and index finger compatible with touchscreens.
